Remote Sites Global
Catering and
support services

A member of the  **entier** family

*Delivering a home from home
in global locations every day*

OUR GLOBAL OPERATIONS

Our local, global Entier support network delivers seasonal, locally sourced food alongside a dedicated service.

Our independent business builds long-term client relationships through honesty and transparency – large enough to deliver; small enough to care.

HEALTH AND WELLBEING

Healthy eating is ingrained in everything that we do at Entier.

Our Healthy Eating Charter stipulates a reduction in salt and fat and promotes healthier cooking methods.

Our menus and recipes are nutritionally analysed by The Rowett Institute, a world-leading research centre for food nutrition. All our units in the UK, both onshore and offshore, have the Healthy Living Award - the only company working in our sector in the UK to achieve this.

A HOME AWAY FROM HOME

It's all in the detail.
We create a home away from home by doing such simple things like making sauces from scratch, taking the time to prepare bespoke menus on-site and using local, fresh produce.

We provide exceptionally high-quality bedding, pillows, mattresses and towels to ensure comfort and safety. With the crews working in harsh environments we have an ongoing commitment to making the accommodation/hotel experience as rewarding as possible.

THE MARK OF QUALITY AND VALUE

We believe that the success of our service delivery is driven by the performance of our primary asset – our competent and qualified people.

Our objective is to contribute towards a happy and satisfied crew – leading to better staff morale and increased productivity and safety on board.

We prove time and time again that exceptional food and service can be delivered competitively. Quality always comes as standard.

TESTIMONIALS

"TechnipFMC has been delighted with the service provided by Entier on board our vessel fleet over the last few years. Given the challenging climate in the oil & gas industry, we have worked very closely with Entier to maximise cost efficiencies, whilst maintaining a high level of service on the vessels. These factors were fundamental in our decision to continue our relationship."

**Kevin Thomson – Vice President,
Technip Marine Operations**

"We are very satisfied with Entier's performance to date. The quality and variety of provisions, including local produce, is appreciated by our crews, who operate in different parts of the world."

**Mark Bosson – Security Officer &
Manager of fleet marine contracts,
Technip Marine Operations**

"Service and food from Entier has been excellent and of high quality through the voyage from transit start in Korea and to UK waters. Meals and catering are most important welfare for our offshore crews and the variety and high standard have become a trademark for Entier on DAB."

**Offshore Installation Manager,
Odfjell Drilling**

"Entier has provided an excellent level of service to both of our units based here in the UKCS, with their standards continually above what I have experienced elsewhere both in terms of food quality and cleaning services. Their personnel actively participate in all of our safety systems and they typically have a very good relationship with the Awilco Drilling team."

**Gary Holman –
Operations Director, Awilco Drilling**

"From the outset of our discussions during the tender process with Entier, we were struck with the emphasis on quality of service in providing catering and housekeeping services. The quality of product and using local produce at competitive prices was unique to Entier and was a welcome approach in line with their commitment to quality. Our transition of providers was handled really well by Entier and the process was seamless with really good communication at all times including with all our offshore assets. We have had very positive feedback in the initial stages of the contract in line with the quality commitments that Entier had made, and we look forward to working and building a successful relationship with Entier over the contract period."

EnQuest PLC

SUPPORT SERVICES

Cleaning, laundry and technical services are just a few examples of the added value support that we manage for our remote site clients.

Our stewards are trained to the highest standards at our in-house training cabin facility located at our Westhill site in Aberdeen.

MLC Training – Ship's Cook Competency Course: Entier runs the only approved Maritime Coastguard Agency (MCA) training centre in the North of Scotland.
